SCALE 1:100
0 2000 4000mm

Pack out as required 5-15mm to support original windows and fixing points. Contractor to determine on site to ensure edges can be sealed with IsoBloco One expanding strip and flexible sealant over. Where interior linings are being replaced, run VCL down internal wall and into window head, lapping over window.

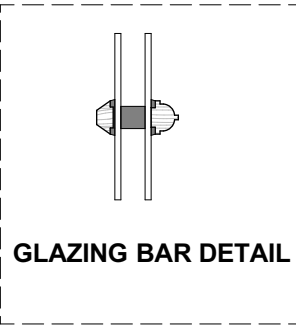

IsoBloco One expandable foam window sealing system continuous to window surround

Mastic sealant to window head to seal unit to wall

Proposed new timber sliding sash window to match existing windows like-for-like

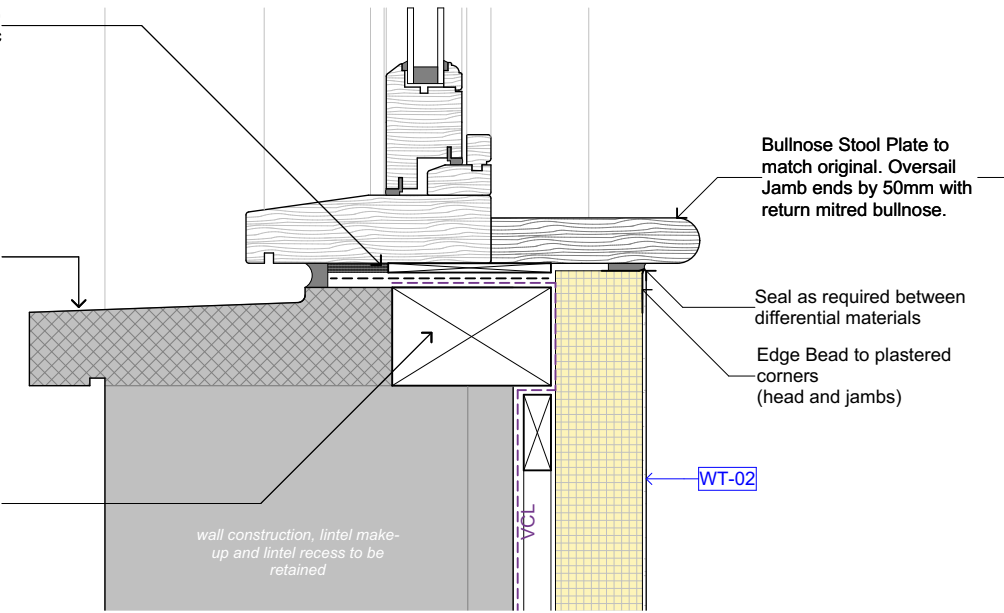

NEW WINDOW HEAD & JAMB DETAIL

Iso Block One expandable foam window sealing system continuous to window surrounds. Finish with mastic sealant to gaps

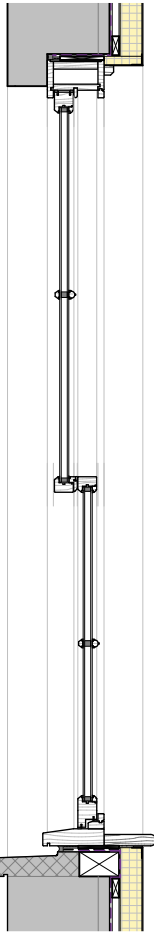

Existing pre-cast sills to remain

Blocking unknown to support original windows. Allow for a new block to line up with wall battens below for a flush finish for VCL and internal insulation to run. Where interior linings are being replaced, run VCL up internal wall and under DPC. Lay DPC between brick and timber elements.
