

**Statement of Reasons for Tree Preservation Order Application to
Fell and Treat T1 Cherry and Remove all shrubs and Rowan tree (No works to
remaining group) to TG1 Birch at Camden Arts Centre, Arkwright Road,
London, NW3 6DG.**

1. The above tree works are proposed as a remedy to the differential foundation movement at the insured property and to ensure the long-term stability of the building.
2. The above tree works are proposed to limit the extent and need for expensive and disruptive engineering repair works at the insured property. In this instance the estimated repair costs are likely to vary between £47,500 and £500,000, depending upon whether the tree/s can be removed or must remain.
3. The above tree works are proposed to limit the duration of any claim period and therefore allow the landowner their right to the peaceful enjoyment of their property.
4. It is the case that an alternative to felling such as pruning or significant 'pollarding' of the tree would not provide a reliable or sustainable remedy to the subsidence in this case. We do not consider that any other potential means of mitigation, including root barriers, would be effective or appropriate in the circumstances.
5. We are satisfied that the evidence obtained following completion of our Arboricultural Implication Assessment report completed 4th September 2019, clearly links the T1 and TG1 trees as the cause of damage to the risk address
6. Insurers understanding the requirement to offer replacement planting in the event consent to fell is granted.
