- 1 Location plan, 2011 SH SE 01C (section), 2011 SH PR GA 02C (propo 2f), 2011 SH PR GH 03D (propo 3f), structural engineer report

The site is a four-storey terraced house of the late 17th century, listed grade II and making a positive contribution to the Seven Dials Conservation Area. It has an unusual central staircase.

The applicant wishes to reinforce under-floor oak bressumers on the second and third floors using steel flitch plates. Engineering justification has been supplied. Existing notches are to be filled in as part of the work. Sheets of plywood used to add rigidity and protect the floorboards will be marked "historic boards below, do not puncture".

Notwithstanding the consented drawings, this application only relates to works to the bressumers and floor surfaces. No consent is granted relating to other aspects of the proposal, such as plan form.

The proposed works will not harm the special interest of the grade-II-listed building.

The site's planning history has been taken into account in making this decision.

Special attention has been paid to the desirability of preserving the special interest of the listed building, under s.16 of the Listed Buildings and Conservation Areas Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013

As such, the proposal is in general accordance with policy D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the NPPF.
