2020/4413/P	Bruce Daisley	14/12/2020 20:49:35	SUPPRT	The transformation of Belsize Village in the last year is a case study of civic rejuvenation. The only way to develop our city areas is by whole heartedly supporting these things. I live right next to the square. We hear some noise. We have a young baby. And we don't care. The noise is always resolved on time and is fully justified by the joy it brings to the area.
2020/4413/P	Carol haidar	14/12/2020 20:48:53	SUPPRT	I love what they've done with the area it's really brought it to life. So thrilled the streeatery came up and o hope to see it every year moving forward !
2020/4413/P	naomi	14/12/2020 21:25:52	COMMNT	I support ! It's so much better and cleaner since the changes and it would be a shame to revert all the great works.
2020/4413/P	Daniella	14/12/2020 21:03:29	COMMNT	Support
2020/4413/P	Lauren	15/12/2020 00:39:52	YES	<p>The streatery in the summer was the best thing that has happened to Belsize village it was amazing &amp; I hope it happens every summer! The community came together outside safely and was well organised. No problems at all &amp; I think that streatery saved the businesses for sure!</p> <p>The planters in the village are beautiful &amp; really makes the village so pretty &amp; the neighbourhood have all helped look after it all. Real community spirit.</p> <p>The new bin system is absolutely amazing !!! This has solved a massive problem the village had. Before the waste system was here there was rubbish all up and down the streets there was foxes everywhere. Rubbish all the the road. Peoples general waste on every lampposts every door steps it was horrendous. The new system is all in one place with a key system for all the businesses and community to use. And has worked amazing !! I hope it stays it's the best thing and has made the village a much cleaner place.</p>
2020/4413/P	Lucy Smouha	14/12/2020 19:22:43	COMMNT	I fully support this application. It has made the area more appealing a green for the locaks
2020/4413/P	Richard	12/12/2020 12:47:57	SUPPRT	<p>The approval of this application is very important. Even if the bin storage is turned down it is imperative the planters remain. They provide much needed beautification as well as security against possible car attacks on the square. The square is now used more than ever before in the last ten years providing both a lively community space as well as a lovely Streeteatery over the past summer.</p> <p>Please approve this application.</p> <p>35 Daleham Mews</p>

2020/4413/P	Jane Boardman	12/12/2020 12:30:05	COMMNT	<p>The narrow pavement on the east side is frequently covered with tables. The pavement on the west side is narrow and very difficult with totally inadequate cycle parking and commercial bin storage overflowing, not easy to negotiate with heavy shopping bags from the bus stop. Walking up Belsize Terrace is hazardous, too many cars driving too carelessly. To get back onto the pavement is difficult, the meet 'n' greet stall y the public notice board obstructs access, they are completely indifferent to local residents trying to get past, and the sets for the bike route make that hard work with a shopping trolley as well as the hazard of bikes. It is impossible to access the east side of Belsize Crescent thanks to shop overflow.</p> <p>The line of benches is appalling, they were previously sited to take advantage of the sun at different times of the year, now they are in permanent shade and must be returned to the original positions.</p> <p>The open space previously enjoyed by a playgroup as well as individuals with small children meeting informally as plus older people taking the air and having a chat has been taken away.</p> <p>If people think The Streatory is a good thing to have then I suggest restoring the paved part of The Village to its original bench arrangements and public open space purpose, remove the parking from Belsize Terrace and re-site the planters and tables there. In its current state it is appalling. Commercial interests taking over public open space once more. We need more public open space and more cycle parking.</p>
2020/4413/P	Lynn & Gene	13/12/2020 20:53:51	SUPPRT	<p>We are supportive of the bin stores and planters. The planters have been a very positive addition to the beautification of the square which in turn serves to attract people to the nearby local businesses. The bin stores also provide a useful alternative to businesses piling rubbish at the edge of the square for pickup. However, the bins also attract vermin to the plastic sacked rubbish that is not in the bins. These often have food in them which ends up spread on the ground. Restaurants in the area should be required to put food rubbish in the bins or else to double bag it so that foxes do not rip the bags open and spread rubbish.</p>
2020/4413/P	Patrick	14/12/2020 20:17:49	SUPPRT	Support
2020/4413/P	Andreea	14/12/2020 17:53:54	COMMNT	Support!
2020/4413/P	Javier Rico	15/12/2020 07:42:07	COMMNT	<p>Totally supportive.</p> <p>There used to be a disgusting massive mountain of rubbish and foxes would even more to the dirt. Having bins should be the standard also in other areas such as South End Green, the current system of leaving plastic bags in a mound is unhygienic and not acceptable for this century.</p> <p>The bins and the planters have given the area a much nicer appearance, inviting to walk by more, increasing the economic activity of the place.</p>
2020/4413/P	Michelle Lim	14/12/2020 17:47:02	COMMNT	Support

2020/4413/P	Michelle Caplan	16/12/2020 16:30:14	OBJNOT	Dear Sirs,

Regarding the proposed Planning Application I strongly OBJECT on the following grounds and have attached photos taken on the 15th December as proof to my points.

There are far too many planters 3 would suffice they are not maintained are just growing weeds with no planned arrangement or continuity so look a mess. They are neglected and even at this Xmass time there is no interest by those who want to enhance their businesses to decorate them or make them look nice. They block the pathway to the pavement so no wheelchair or someone with walking sticks can manoeuvre around them. They are in fact a hazard to the elderly that actually live in the village as opposed to those in favour, under your comments, who are not residents here. In effect they block access to a public walk way.

Benches again are arranged in such a way that along with the planters encase the whole area inhibiting any free passage through them for anyone one who wishes to avoid getting caught in the enclosure that has been formed. In fact it turns the whole area into private space to serve the restaurants who do not maintain or have any interest in maintaining this additional area to their restaurants. This has been historically a free passage area but this scheme blocks any access at all for those that are mobility challenged or to pedestrians that wish to avoid having to squeeze past tables or walk around benches leaving only the pavement behind them for access.

The pavement area where the new dustbins have been placed is very narrow due to the tree and the bicycle parking and as is shown by my photos has become a dumping area for all rubbish from everywhere which all this week has blocked the pavement making it unpassable. So along with the planters and the benches what was Public space is being denied to those who do not wish to mix with restaurant visitors. The Residents are having historic public quite enjoyment communal space changed into retail space with no thought at all as to other peoples interest or access to the other retail units ie: the chemist, vets or hairdressers.

I understand that the restaurants are putting this planning through on the basis or enhancement but this scheme is not it.

Put the 2 or 3 benches back where they have been forever and perhaps 2-3 planters well spaced to allow through traffic for pedestrians and to other shops. The restaurants can still have some tables in the area but the area stays public space and not only restaurant space.

As for the rubbish problem although it was bad before now it is a hazard as well as an eyesore. It is too close to the bicycle parking. I am afraid I have no solution to this problem.

I have tried to upload photos but it appears that evidence to back up comments is not allowed . Perhaps the Officer in charge will contact me by email so that I can supply the evidence that I wish the Council to take into account.

There is only one Notification of this planning application posted on one lamppost by a planter. None have been erected in any of the residential streets directly accessing this area or along Belsize Lane itself !!!!. Some local residents I have spoken to are completely unaware of the changes being proposed this cannot be the correct way to gather honest local opinions either in support of or objections to the proposal

I sincerely hope the Council will take on board these comments and refuse this particular scheme. I wish to be

Application No:	Consultees Name:	Received:	Comment:	Response:
				notified of the Committee date in order to attend which is my right.  Sincerely, Michelle Caplan
2020/4413/P	linda Grove	15/12/2020 18:28:44	INT	Proposal for bin storage, too prominent and large. Awkward along the curved wall, blocks the road sign of Belsize Square. Large amount of rubbish increases with bins, not only from shops but from residents in the shop flats. Produces Vermin , rats and foxes. No consultation has been made to local residents or traders about installing these bins. This is an unelected group of four people putting an application in on Camden land, a public space. This group has never sought opinion or presented drawings of their proposals in the square for this application. Is it legal for a group of private citizens to make such an application about a public space without consultation?
2020/4413/P	A Volks	15/12/2020 08:38:49	COMMNT	Support!!
2020/4413/P	Caroline Norman	14/12/2020 18:01:44	NOBJ	I support
2020/4413/P	Leila	14/12/2020 21:51:37	COMMNT	Support
2020/4413/P	Mrs Holmes	15/12/2020 07:08:29	COMMNT	We fully support the application! Ensuring a cleaner and brighter village environment. May we continue to be respectful to residents and the local businesses whom have done such a marvellous job at offering a solution to the waste issue that blighted the area for so long. The marked difference is notable and worthy of the people whom volunteer
2020/4413/P	Michael mchale	15/12/2020 08:19:30	COMMNT	I support this entirely.  It has really improved our community
2020/4413/P	Guneet luther	14/12/2020 22:01:07	SUPPRT	Absolutely support!
2020/4413/P	Diana	14/12/2020 20:10:04	SUPPRT	I support this, Belsize Village has been transformed and needs to remain this way. Many thanks to Bob and Aya and all the other volunteers involved.  I go to Belsize Village daily and live in NW3
2020/4413/P	Stephanie Ruth	14/12/2020 20:15:08	SUPPRT	Support

Application No:	Consultees Name:	Received:	Comment:	Response:
2020/4413/P	Richard Fletcher	12/12/2020 10:36:53	OBJ	<p>I agree 100% with the objection by the Belsize CAAC</p> <p>The whole triangular area needs to be comprehensively designed with consideration given to relocation of cycle stands, bins and parking, the extension of paved areas and the removal of bollards. The planters obstruct pedestrian movement along Belsize Lane. The bike stand area is chaotic. The existing benches are parked to the west as a barrier and have their backs to the sun.</p> <p>The public utility and amenity of the open space in the Village has been taken over by commercial interests. If we are to make a change, and this is such a prime space, Camden should take a step back here and employ a comprehensively designed urban street plan, rather than roll-over to a piecemeal fix. Is parking really necessary along Belsize Lane given the utility of the space? There is a big opportunity here for a comprehensive redesign in line with Living Streets</p>
2020/4413/P	Gillian	15/12/2020 11:12:25	SUPPRT	Strongly support this brilliant initiative!
2020/4413/P	Teresa Nardo-Jackson	14/12/2020 23:11:20	SUPPRT	I support this, it's keeping the village tidier and the planters look amazing and the whole area looks more welcoming ??
2020/4413/P	Daniel Stanley	14/12/2020 23:11:21	SUPPRT	I support this
2020/4413/P	Camille	15/12/2020 00:42:20	COMMNT	<p>The new bin system is a great idea and excited well and has solved a massive problem in the area with the waste issue. Previous to the new waste systems there was a huge litter/rubbish problem in the area.</p> <p>The plants are beautiful &amp; have made the village a lot more welcoming &amp; aesthetically pleasing.</p>
2020/4413/P	Camille	15/12/2020 00:42:21	COMMNT	<p>The new bin system is a great idea and excited well and has solved a massive problem in the area with the waste issue. 2020/4413/P	Asher Kenton	14/12/2020 18:44:23	SUPPRT	<p>Hi there, I live in Belsize Village and support keeping the planters and bins. Before they were there, all the restaurants and shops left all their bin bags on the street. This caused disgusting bin juice to leak all over the square and seep down the hill. As a result, the square was always dirty and often smelly. The pile of bin bags used to take up a considerable part of the pavement, making it difficult to access the letterbox and for people with pushchairs and wheelchairs to manoeuvre the walkway.</p> <p>The planters have added some much needed life to the area. While there have been some loud objectors, most people here have been very happy with the changes. When family and friends have come to visit, they have commented on how beautiful and vibrant the area is.</p> <p>The bins have given everyone a designated space for their rubbish. Whilst very occasionally the bins aren't quite large enough to accommodate all the rubbish, it's always cleared promptly. This is a million times better than the previous situation and has cleaned up the square considerably. I would suggest that extra bins would solve the problem completely.</p> <p>Many thanks for taking the time to read this.</p> <p>All the best, Asher Kenton</p>
2020/4413/P	Aya Khazaal	14/12/2020 17:38:15	COMMNT	I can't imagine seeing the trash mound outside Roni's again. An awful sight, and it encouraged rats. Garbage used to be left out for days.
2020/4413/P	Emily Chalk	14/12/2020 17:39:23	SUPPRT	The Streatery is a wonderful and much-needed local initiative - hugely in support of this application.
2020/4413/P	Dan Freedman	14/12/2020 17:40:35	COMMNT	I support the planters and permanent bins. unsure why it stake. This long for the village to have them.
2020/4413/P	Alice Zimmermann	14/12/2020 19:50:15	SUPPRT	Support this is saving the neighborhood thank goodness.
2020/4413/P	Anne Fousse	14/12/2020 20:40:10	INT	I absolutely LOVE the difference the improved bin system and the beautiful planters have made to Belsize Square. It's clean. It's beautiful. It's a joyous place for the neighbourhood to come together (socially distanced, mind you). I am thrilled with how it looks and so thankful for this improvement.
2020/4413/P	Aleksandra	16/12/2020 13:29:27	COMMNT	Support, it simply makes Village beautiful.
2020/4413/P	Mary K	14/12/2020 21:23:02	SUPPRT	I support this proposal as a resident of Belsize Park
