2020/5021/P	D Felix	27/11/2020 12:49:12	SUPPRT	<p>I believe that this application meets the criteria required of permitted development.</p> <p>We have been sympathetic to the needs of close neighbours and demonstrated through the sunlight report.</p> <p>We have been sympathetic to the broader Estate in keeping closely to the design and with many other similar extensions in the pipeline.</p> <p>We are aware of our environmental responsibilities and will be constructing and maintaining the house in a sustainable way in line with the targets of the Camden Borough.</p> <p>On these grounds we hope permission will be granted.</p>
2020/5021/P	M Salter	29/11/2020 16:10:58	COMMNT	<p>This one looks fine to me; it's sensitive to the surroundings and won't materially alter the streetscene or enjoyment from the surrounding amenities as long as the finishes are appropriate to the building.</p>
2020/5021/P	Anna	27/11/2020 16:25:08	NOBJ	<p>I am in support of this application. I think it is fantastic that at long last these houses can build an extension. We live in the area and are considering buying one of these houses and would like additional space for our growing family especially with additional home working now. The design is similar to all the houses in the road so looks ideal. The reports show it meets all the PD guidelines.</p> <p>I am in support.</p>
2020/5021/P	Tim Lipton	27/11/2020 17:18:17	COMMNT	<p>I am a local resident and I am in support of this application. I take a keen interest in planning and the recent PD rights. I think this application is in line with the purpose of the new law to enable families to do extensions. This plan meets the needs of the surrounding area and the future needs of residents. I am in support.</p>
2020/5021/P	Mark Hirschfield	27/11/2020 14:20:39	COMMNT	<p>I am in support of this application. I am supportive of the sympathetic design and feel that it will enhance the Borough of Camden as a place for families to live and grow. I used to live down the road and would have liked to do an extension but instead have moved my family for more space. I feel it is necessary for people to be able to expand their homes with a design that fits in so well to the surroundings and in keeping with the new PD law.</p>
2020/5021/P	george collings	29/11/2020 08:55:43	SUPPRT	<p>We strongly support this application. Extensions such as this will provide required additional space for local families, without which, they will be forced to leave the area. There are already many different styles of building, and height of buildings, so uniformity of the current stock shouldn't be an issue.</p>
2020/5021/P	Natalie Riesenber	01/12/2020 12:34:53	SUPPRT	<p>Hi, I wanted to let you know that I am in favour of this application. I firmly believe that we should be supporting those that wish to grow a community where they live by allowing them to improve their current homes. Never has there been a more poignant time to promote the growth of a community where people can help those who are less able or elderly for example and this is only strengthened when people have been in their current homes for a long time and relationships are formed. On this basis, I believe the council should also support home improvements and extensions in the area and allow people to grow roots, children to stay in the same schools and communities to strengthen.</p>
