DAEWHA KANG DESIGN

**RICH NATURAL MATERIALS**  
Regeneration Pods - the Shard, London

**IMMERSIVE SPACES**  
Living Lab - the Shard, London

## **DAEWHA KANG DESIGN**

DaeWha Kang Design is founded on an ethos of beauty, innovation, and wisdom. We specialise in creating extraordinary and high quality designs with an emphasis on human wellbeing.

Principles of biophilic design ensure that our work responds to our innate human need to be connected with nature. Many of our designs take direct inspiration from nature through complex patterns and forms or takes advantage of rich natural materials as a means of improving human wellbeing through design.

Sustainability also lies at the heart of our work. Bamboo, as seen in the Living Lab and Regeneration Pods in the Shard, is both a beautiful and highly sustainable material which we intend to use in the Peak House extension.

We also believe in the use of cutting edge technology as an enabler of innovative and expressive design. This allows us to create unique experiences, whilst also achieving more with less.

This extension will embody these same design principles. Although the project is small we will take the same level of care and consideration as with all of our other work.

**ARCHITECTURE BUILT TO LAST**  
Rainbow Publishing House - Paju Book City, Korea

**EXQUISITE CRAFTSMANSHIP**  
Lady Chapel Reredos - St Andrew Holborn Church, London

**EXPRESSIVE NATURAL FORMS**  
Communique Headquarters - Seoul, Korea
