For the attention of Joshua Ogunleye
Case Officer
London Borough of Camden
Planning Department

Dear Joshua Ogunleye

Objection to Planning Application 2020/1732/P: Installation of telecommunications equipment at roof top level to include 12 antennae, dish antenna, cabinets etc. at Highstone Mansions, 84 Camden Road, NW1 9DG

I am emailing to make an objection to this planning application to install telecommunications equipment on the rooftop of Highstone Mansions.

I am a resident of Highstone Mansions. This application has just been brought to my attention.

As a resident I think that in line with the previous objections that this application should be refused on the basis that:

This is a sensitive site in the Regents Canal Conservation Area. The installation will be obtrusive and to the detriment of the visual amenity of the conservation area.

The locality is already well served by Telefonica/O2 and Vodafone within a 250m to 300m radius of the site, thus the installation is unnecessary.

The installation would adversely affect the health of residents.

There has been a complete lack of consultation with residents at Highstone Mansions with regard to the application hence this late letter of objection.

I request that this letter of objection is taken into account.

Yours sincerely

Pierre d'Avoine
