Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

Informative(s):

- 1 Reasons for granting listed building consent (delegated):

77 Arlington Road is one of a terrace of 17 dwellings built in the 1840s which together with the attached railings are listed Grade II. Arlington Road is located within Camden Town conservation area.

This application is for internal alterations to the layout of the second floor flat. The building was converted into three flats in 1979, at which point presumably the original internal decorative features were removed.

Given the nature of the previous intervention this proposal has a neutral impact on the architectural significance of this Grade II listed building. The works are internal and therefore they have no impact on the contribution the house makes to the character and appearance of the conservation area.

The site's planning history has been taken into account when making this decision

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as

amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
