- 1 Reasons for granting permission. [Delegated]

This consent relates to the re roofing of Parnell House which is listed Grade II\*. The building is a block of artisans' flats dating from 1849. Designed/built by Henry Roberts for The Society for Improving the Condition of the Labouring Classes. Interiors replanned c1985. Yellow stock brick with rusticated stucco 1st & 2nd floors, and stucco dressings. Fireproof construction of brick load-bearing walls and arched hollow-brick floors. L-shaped plan. EXTERIOR: 5 storeys and basement (top storey added later). 6 bays and 12-window return to Dyott Street. Stucco doorway surround with architrave, console-bracketed cornice and pediment. Plain stucco band at 2nd floor level inscribed "MODEL HOUSES FOR FAMILIES".

The re roofing involves the installation of roof insulation and the re covering of the roof membrane on a like for like basis. The roof insulation will involve a slightly deeper depth to the roof covering however no part of the new covering will be visible from the public domain as it will sit behind the existing parapet out of view.

The details of the roof installation are not considered to harm the significance of the listed Grade II\* building and as such the scheme is supported.

No responses were received as a result of the public consultation. Historic England responded with a letter of flexible authorisation duly stamped and dated 23/12/2020.
