

Application No:	Consultees Name:	Received:	Comment:	Response:
2020/5788/L	Christopher Bell	04/01/2021 16:10:45	OBJ	<p>I object to the proposal to replace the current wooden garage door and adjoining side door, which faces on to Christchurch Hill, with a metal door.</p> <p>Such a change would affect both the character and appearance of that side of the road, where the fences and external boundaries to the properties are mostly wood, with some brick.</p> <p>A large metal door would be detrimental to the look of Christchurch Hill. Any replacement should be constructed of wood to maintain the character of the road.</p>
2020/5788/L	Robert Maclean	04/01/2021 15:56:13	OBJ	<p>This application to extend a garage not currently in use will have a markedly adverse effect on the houses in the lower part of Christchurch Hill. On the boundary opposite those houses the fences, doors and gates are wooden, in keeping with the rustic character of a street that is situated at one corner of the Heath. The proposal to replace the existing wooden doors of the garage with a single (and larger) metal door is completely out of keeping with the rest of the boundary, and would be an eyesore particularly for those residents in Christchurch Hill who look out on the garage.</p>
2020/5788/L	William Lyons	04/01/2021 11:56:21	OBJ	<p>This application includes changing the current wooden doors on the Christchurch Hill side with a single large metal door. This is entirely out of keeping with the street where all of the boundary along that side of the road are wood or brick. A large ugly metal garage door will severely impact the conservation area, destroying what is currently a harmonious and attractive streetscape. It is also entirely unnecessary, as the garage doors can as easily be replaced in wood. This is merely a thoughtless change by the owner of the house in Gainsborough Gardens who is entirely un-impacted by this choice, but has given no consideration the the huge detriment caused to the residents of Christchurch Hill.</p> <p>Chair, Lower Christchurch Hill Resident's Association</p>
2020/5788/L	Sarah Dewis	04/01/2021 17:30:34	OBJ	<p>I am resident of 31 Christchurch Hill and I look directly onto the back of 11 Gainsborough Gardens. I ask the council to turn down this application. My objections are the following:</p> <p>The replacement of the current wooden doors with a metal door would greatly change the look and texture of the back of Gainsborough Gardens with an adverse impact on its historical fabric and to the detriment of residents who look onto it.</p> <p>Gainsborough gardens residents already have private parking at the front of their properties. The area in question has not been used as a garage for the past 20 years or so. This appears to be a way of making additional garage space and would increase the traffic flow into Christchurch Hill which is a narrow one-way street.</p> <p>Thank you for your consideration.</p>
