10 Camden Mews

I live at 8 Camden Mews and am the owner of that property. As you will know it is one of three homes built at the same time including Nos.8A and 10.. Just as the increased use of motorcars enabled, previously used as stables, to be freed up for house building, - as was the case for Mews houses - so has the imaginative design of flat roofs enabled the use of such roofs as outdoor spaces to compensate for the lack of gardens attached to the new build homes.

Camden has a full appreciation of the need for trees and green spaces as being essential to the environment and the health of its residents. Camden's record in allowing innovative green spaces, where possible, is unequalled. The application for No. 10 is laudable and I am certain that Roddy Langmuir will strive to produce a plan which complies with the necessary safeguards for neighbouring privacy. As such, I fully support the application.
