2020/5037/L	John Malpass	07/01/2021 10:40:12	OBJ	<p>When the original applications were submitted for these works and for the construction of a "simple garden room" the owner claimed it was necessary to accommodate his "growing family." He has not resided in the house for the last four years and the garden room has not been used at all during this period. The house is now let out on a series of short-term lets on a continuing basis. Again this creates an enormous amount of rubbish (see my comment on application 2020/5040/L).</p> <p>The applicant, as a professional architect, knew only too well that the massive alterations to this Grade 2 listed house contravened in every respect the regulations in respect to this conservation area. The alterations at the rear of the house, with the use of a massive black metal frame, are entirely alien to the architecture of the street.</p>
