2020/5040/P	John Malpass	07/01/2021 10:18:53	OBJ	Mornington Terrace is a residential street. It is entirely unnecessary to continue to use this basement as an office, when vacant purpose-built office space is available throughout Camden. The use of this basement for business purposes creates a continuous stream of visitors; It also results in a significant rubbish problem which requires the owner to park five large bins on the public highway outside blocking the pavement. This results in rubbish blowing all over the road as the bins are frequently left overflowing.
