2020/5683/P	Paul Newnham	10/01/2021 16:57:55	OBJ	<p>Objection.</p> <p>This pub has high community value, and this application is surely cramming a quart into a pint pot. Overall, it chips away at the ground-floor pub space making it less viable both as a pub and as the effective community-centre it is at the moment. The loss of this space is by no means offset by the proposed community room, and I question how many people will welcome a subterranean meeting place. Quite apart from these objections, this is surely over-development of this splendid building.</p>

---

2020/5683/P	L. Whatley	10/01/2021 13:05:58	OBJ	<p>This pub is a very important asset for the local community. Permission was already given for flats upstairs, now the owner wants two more flats. The kitchen being located downstairs would be much less pleasant for those working in it. The community room would be dark and dingy. This proposed development would eat into the pub space meaning it no longer functions as well as it does currently, and as it is a very much-loved, friendly, local pub (hence its status of Community Asset), I strongly object to these proposals.</p>
