2020/5762/P	Jonathan Byatt	09/01/2021 10:25:41	SUPC	This is a sensitive and considered design. It reflects the nearby disused Chapel as well as the history of college Lane itself. In support of this application I would request a further signalling of the historic nature of the site. This area was used and the very formation of Kentish Town and Camden itself. It's included pleasure houses and a racetrack. Can the construction include a plaque, situated on the gate comma fencing or or paving to detail some of this rich history? It would be an asset to Camden to to commemorate the importance of this area and the way to enrich the new structure by giving it a context.
