22 March 1995

Dear Director,

APPLICATION REFERENCE NO PL/9500249/ /G7/11/K

I am entirely against the building of 3 storey residences of 5 flats etc on the land adjoining 79 Belsize Lane and I shall do all I can to stop it.

What does this proposal if carried through mean in fact? That we who live nearby will have less space to park our cars (and the spaces that are already allotted to us are too few anyhow). The ~~underground~~ underground parking spaces do not solve the problem because the cars for those spaces have to get in an out, and visitors to the owners of those flats, who will acquire visitors' parking permits, will increase our parking difficulties.

And why give permission anyhow? Must every scrap of land be covered with houses and flats so that builders can earn money and Camden council grab more cash for their useless schemes? Furthermore, do you realize that you - I mean you personally - if you are in favour of this scheme are helping to destroy the earth?

Yours unequivocally,
