Re : Application No. 95 00 249 R3

OBJ

Dear Mr. Brew,

I write to you to formally to object to the extension to the rear of 42 - 45 Belsize Park. I live in the flat on the upper ground floor of 41 Belsize Park. My [REDACTED] face North West and should the nextdoor building be extended it would not only mean that, were there to be windows on the side of the extension, the future residents would look directly into my flat, but also that it would darken both rooms to such an extent that the character would change from light and pleasant to dark and gloomy. At that the value of the property would go down immensely. I very much hope you will consider my objections and refuse the application.

Yours sincerely,

[REDACTED]
