2021/0067/T	Simon Conroy	13/01/2021 19:19:46	INT	As the neighbour with the garden and conservatory next to the tree, I support the application to fell and replant. This is on the grounds that: the tree is clearly diseased; is nearing the end of its life; and needs the end managed safely. We support the replacement because the tree has: afforded our house welcome shade in the hot summer; and has been a valuable haven for wildlife.
