

BISHAM GARDENS  
EXTERIOR  
REVISED SCHEME

PLANNING PROPOSAL**1. Threshold and Door Height**

We have chosen to omit the stone threshold previously proposed. The threshold will remain timber but may become slightly taller in height to meet the internal floor height.

**2. Front Door Widening/ Design**

We would like to install a new slightly wider door which is similar to the existing door.

**3. Fanlight**

We would like to re-make the existing fanlight with clear glass in 12mm slim double glazing to the slightly wider proportions in order to be aligned with the door, inclusive of a new hand painted gold number.

**4. Front Door Stained Glass**

Removed from proposal and obscure thin double glazing to be used. See drawing 201207\_5BG\_Production Drawing HoG-Rev.1

**5. Wall Rendering/ Removal of Pier Caps**

Our proposal here has been amended to create a design in keeping with the rest of Bisham Gardens. We propose rendered walls in the same colour as the masonry (off-white). New walls to follow the step line upwards towards the front door and feature pyramid piers, as at 3 Bisham Gardens. The front wall adjacent to the pathway to follow the same ridge on the wall, similar to 18 Bisham Gardens.

**6. Porch Wall Tiles**

Replace like-for-like as the existing is dilapidated.

**7. Porch Floor Tiles**

Replace like-for-like as the existing is dilapidated.

**8. Red and Yellow Upper Landing Tiles**

Replace with a dark grey stone in keeping with the area that is also proposed for the steps and is similar in colour to 15 Bisham Gardens.

**9. Steps and Risers**

Replace with dark grey stone in keeping with the area that is also proposed for the upper landing, step from path and is similar in colour to 15 Bisham Gardens. The depths of the treads will be increased to become building control compliant and the steps will feature bullnose edges as shown at 15 Bisham Gardens.

**10. Red and Black Lower Landing Tiles**

Replace like-for-like as the existing is dilapidated.

**11. Step from Path**

Replace like-for-like as the existing is dilapidated.

**12. Gully on Right To Be Filled/ Trellis Removed**

To be removed as this is not in keeping with surrounding area.

**13. Holly Hedge**

To be removed.

Front door and frame colour to be off-black.  
See. Door drawing on following page.  
2 glass panels in obscure toughened glass.

Wall tiles to be replaced like-for-like

Floor top landing tiles to be replaced like-for-like.

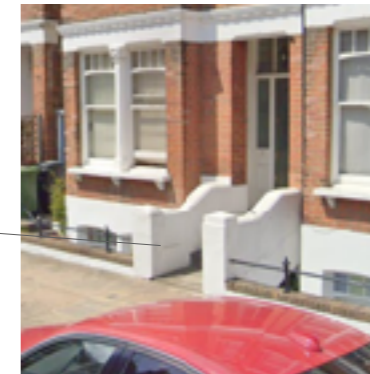

Red and yellow tiles to be replaced with dark grey stone for continuity.

Steps with bullnose edge in dark grey stone. First step from the street and top step to be replaced with the same dark grey stone.

Clear 12mm double glazed fan light with brass painted number.

Rendered walls in the same colour as the masonry (off-white), which slope upwards towards the front door and feature pyramid piers, as at 3 Bisham Gardens.

The front wall adjacent to the pathway to follow the same pyramid shape on the wall, similar to 18 Bisham Gardens.

Thank you for your time
