

## 11 Provision of public open space

- 11.1 Many developments by the extent and nature of their occupancy will lead to an increase demand for and use of public open spaces. The protection and improvement of these spaces and the provision of new open spaces in Camden is encouraged by policies CS15 and DP 31 of the LDF.
- 11.2 CPG 6 Amenity sets out the detailed guidance on how public open space should be provided in new developments. In summary, the Council's preference is:
1. On site provision of new public open space;
  2. Off site provision of new public open space;
  3. Providing a financial contribution in lieu of direct provision.
- 11.3 Where developments cannot realistically provide sufficient open space to meet the needs of their occupants on or off site the Council will ask a financial contribution. The contribution will be used to improve existing public open spaces or towards the provision of new public open spaces. The Council may seek to coordinate contributions with sites identified Parks Improvement Plan and Biodiversity Action plan provided that these relate to impacts generated by the development.
- 11.4 The contribution will be based on:
- capital cost of providing new public open space;
  - cost of maintenance for the first 5 years; and
  - cost for the open space team to administer the contribution and design schemes.
