Dear Mr Peres Da Costa,

**Formal technical objection – 26 Netherhall Gardens NW3**

I am writing to make a technical objection to the planning application **2019/1515/P**. In my opinion some information provided by the developers and their associates is unreliable in that it is based on assumption rather than evidence based in fact or it is not provided at all.

Based on the geotechnical report attached, inspection to the foundations of neighbouring properties is urgently needed. I quote from the geotechnical report 'the flank boundary wall of No.24A is not as deep as assumed by the applicant' 'risk has been assumed by several assumptions made for the ground movement assessment'. **This could have serious implications for neighbouring properties and needs to be investigated properly before any decisions are made.**

Regards  
Caroline Formstone
