Planning Application number: 2020/5574/P
Site Address: 10 Belsize Park Mews, London NW3 5BL
Description: Erection of a sheer storey roof extension at second floor level
Registered 17 December 2020
Case Officer: Charlotte Meynell

Dear Charlotte,

Due to the Covid crisis we are submitting this objection marginally beyond the deadline set.

We understand you have received a detailed study of the effects that the proposed extension of number 10 Belsize Park Mews will cause to the immediate neighbours in Belsize Crescent, Belsize Park Mews and Daleham Mews (Christ Knight's submission on website). We would like to register our strong agreement with the reasoning contained therein. Other objections have also been sent from many residents in Daleham Mews.

There is perhaps no particular need to repeat all the reasons for objection to this planning application. Our particular concern is that, as the proposed extra floor is actually abutting the rear wall of No 9 [REDACTED] it has the effect of blocking light and therefore adversely effects the quality of light more widely.

In addition, we live at 13 Daleham Mews, and the proposed extra floor will also impact on our privacy, at it would overlook our roof terrace on the second floor.

An equally important point of concern is that this development potentially interferes with the traditional character of this historic mews in a preservation area.

In sum, we object strongly to this planning application.

Also, we would expect to be kept informed of any decisions taken.

Your sincerely,

Professor Peter Leyland
Mrs Putachad Leyland
