I received a call today from a gentleman called Mr Haspineall re 42-45 Belsize Park - PWX0103947/01. He has left messages for Rob Brew but no one has returned his calls. He would like to know what is happening, he received an acknowledgment on 30 November 2001 informing him that it would be going to Committee end of March and has not heard anything since.

Could someone please call him on 020 7486 3658.

Thanks.
Bernie Harte

23/4

Confirmed to Mr H.

1. design of new houses acceptable
2. landscaping - not sure at this stage if landscape details acceptable
I'll check with Nick J, if he hasn't given me comments already
3. I'll call Mr H back on Thurs 25th with Nick's views
4. Mr H also wanted to know if registering main building (chortel used by Westminster to house homeless) as HMO would change its ~~status~~ lawful planning use - in my view no
5. Mr H wanted to know if partial implementation of earlier AP for period conversion of buildings would extend its life - its a matter of interpretation, but probably yes (in my view)
6. Mr H wanted to know if implementation of current appl for variation of earlier AP would constitute commencement of earlier AP - in my view no, as the variations relate to diff part of site
