Dear Laura Hazelton,

I write as a resident of Harmood Street to object to the terrace area proposed around the Horse Hospital.

The Horse Hospital, Stables Yard is a listed Grade II* structure for principally its architectural interest and intactness, as well as being part of a historic group value. It is designated as being a fine example of a C19 industrial stabling complete with horse ramps and interior fittings, including stalls, mangers and hay racks, and an important component of the Camden Goods Depot, one of the most complete groups of C19 railway buildings and associated canal structures in England. A strong part of this historic interest quality is its relationship with the listed wall that surrounds it.

At present, there are tacky makeshift stalls surrounding the face of this magnificent tribute to our industrial heritage, but at least one can see the top part of the main building.

This proposal would completely obscure the main building, and make permanent the harm to its heritage quality that are caused by the temporary stall structures. This complete obscuring would cause substantial harm to the setting of this grade II* structure, which harm is not offset by any public benefit from the development.

7.7 IMPRESSION FROM CORNER OF CHALK FARM ROAD

I urge you to reject this application.

Kind Regards

Paul Whitley

11 Harwood Street.
