Re: OBJECTION : 2020/5850/L and 2020/5789/A Terrace Around First Floor Horse Hospital, Stables Market

I am writing to lodge my objection to the scheme above as a local resident and as a supporter of TRACT.

The design submitted is unimaginative, ugly and cheap in appearance and completely hides the Horse Hospital behind it. It won't wear well and the colour bears no relation to the brickwork around it.

We are told that alcohol consumption is reducing and yet here we have another proposal for a huge drinking area, alongside those already proposed within the Horse Hospital building. At the very least the request for limitations set out in her letter of 28th December by Kate Gemmell with regard to noise and signage should be observed.

It is undoubtedly a shame that so much work and time has gone into producing such a poor solution for such a stunning and unique setting but I urge you to refuse the application as submitted.

Yours sincerely,

Fiona Trier
