Dear Rob,

RE: 42/44 BELSIZE PARK & 78 BELSIZE LANE: PWX0103947/R1 CF G7/11/K

I am very concerned to have received a call yesterday from Mr Ryan Nixon of the Council's Conservation and Design section, who is under the impression that removal of trees on site is not permitted, since we do not believe this is the case.

We have had detailed discussions and meetings with yourself, advising in detail with drawings the intention to carry out the works in phased manner and agreeing as per our letter 9<sup>th</sup> July (copy attached).

We have also submitted landscape details some time ago in addition to the details submitted with our letter and agreed with you that in so doing commencement of the works on site would be acceptable and satisfactory relative to Condition 7.

I confirm that a Building Contract has been placed for the phase one works, and is now commenced.

I would be grateful if you could confirm to your Design and Conservation Section that the process unfolding has been discussed and agreed and is in order, also confirming to us your having done so.

Yours sincerely

Nigel Buller
