2020/5168/P	Keiron McGill	28/01/2021 17:42:55	NOBJ	I have known this Mews for over twenty years and always thought the modern houses were a poor relation to the period houses. Number 8 looks unfinished with the gap on the second floor, anything that attempts to add some symmetry and replaces the rotten garden fences currently hanging off the terrace must surely be welcomed. I also understand this building was in a state of terrible disrepair and used unofficially bedsits - I applaud its return to a single family dwelling.
