I believe it brings character to a building that looked almost derelict and correlates to the gradual uplift that Kilburn Grange park is going through. From looking at the plans the building will definitely benefit from a large modernised window.

The idea of having a large area where a lot of natural light enters the building will bring life to the ground floor, the first floor extension for the community centre is unquestionably necessary, this will enable Qalam to facilitate for more community based projects which our community are in desperate need of, I do believe the design and layout will benefit the users on this building.
