Hi Nora, sorry for the delayed response. There is an existing shed on a concrete slab. I've attached some images to show the existing situation.

The proposed studio would be a timber structure built onto a levelled concrete slab the same dimensions as the existing slab.

Hopefully this helps but let me know if you need any more info.

Kind regards,

Mark Chisholm
Agent

Dear Mark,
Hope you are well.
I have validated your application yesterday. Please find attached acknowledgement letter.
Really sorry for the delay,
Note that the proposed outbuilding sits in very close proximity to the existing trees and most probably on their root protection area. As the property lies in conservation area, all trees are protected and impact on their wellbeing would not be accepted. Can you please provide some information about the method of construction to understand if their trees' roots would be affected?
Best Regards,
Nora
