2020/5469/P	Karine Godber	30/01/2021 16:45:33	SUPPRT	I live in Camden and know this area very well. The wooden fence on the terrace of 8 Richardson Mews looks rotten and very peculiar. It would like significantly better if the terrace is glazed. The mews would look complete with the glazed terrace and proposed obscure glass will allow lots of light through and at the same time would keep privacy and reduce noise on the street.
