2020/5572/P	Khulud Jeway	01/02/2021 19:57:28	SUPPRT	Fantastic initiative, the design and layout makes perfect sense. The health & safety and usage of the building is more functional. The Bi folding door is a no brainer, the properties at the rear of Kilburn Grange Park have been modernised which will coincide with the same aesthetics.
2020/5572/P	Yasin Ali	02/02/2021 19:01:51	SUPPRT	I believe that the idea of extending the first floor for the building is a great idea which has been seen through the plans provided online. I can see that the idea has been well thought out and been professionally designed and the idea links well with the idea of the new stairs which have been designed and built. The old staircase has been a health hazard as they were old and damaged with low ceilings which in some cases many people would occasionally bump their head if not passing with attentiveness. Looking forward to the grand opening when it does re-open.
2020/5572/P	Gloria Baptiste	31/01/2021 04:55:57	SUPPRT	Qalam always had a limited amount of space for women, which was upsetting for me especially when there is quite a demand. I can see they are trying to increase the female capacity on the first floor with the small extension. Excellent idea.
2020/5572/P	Dilara Miah	31/01/2021 22:21:48	SUPPRT	I like it, the bi folding door will be amazing. Natural light needed in a building that lacked any light before.
2020/5572/P	Kate Shaughnessy	02/02/2021 12:21:31	OBJ	I am not against internal development of properties to add space and light. What I do oppose is property owners who do not apply for planning BEFORE the work is done. This is flaunting the rules which have been carefully worked out for a reason and are there to serve the WHOLE community. Anyone who thinks they do not need to abide by them should not get retrospective planning ever. Two trees were chopped down in the creation of this development. We are in the middle of a climate crisis and those trees belonged to the public realm as part of the park, not to this Centre or those who frequent it. No consultation was taken and we lost the trees carelessly and thoughtlessly. I object strenuously.
2020/5572/P	Pauline Atlas	02/02/2021 13:10:56	COMNOT	The extension was built illegally and encroaches onto Kilburn Grange park. Not the applicant's land. They even cut down 2 trees that were the park's property. The extension is ugly and not in keeping with the surrounding buildings. It looks dangerously unstable and badly put together. The materials used do not fit in with any of the surrounding buildings. I urge you to reject this retrospective application

2020/5572/P	Ms Griebel	02/02/2021 22:31:25	OBJ	<p>I am appalled as a user of the Grange for the last 57 years ,at the way the owners of this building have preceded with the planning & building the very shoddy looking extension .They are only asking for planning permission now as they were caught .They took over a part of the park , hacking down thriving trees, that were not theirs to remove and tried to cover up what they were doing . What we as park uses have been left with is a mess . The land for the park was acquired over 100 years ago as a 'Green Lung' accessible to thousands of local residence ,in what was seen then as an over crowed area. We need every bit of it, even the overgrown parts for wildlife. Wildlife is very important to this area as our trees and Camden are constantly telling us how much they love trees and how important they are to air quality .This building has removed its boundary wall without planning permission and annexed the area ,so extending the footprint of the building . The idea that this piece of land locked land , is an area for people to escape to in case of fire , surely a breach of health and safety . Provisions for this should be within the building to ensure the safety of all the people using the building ,not to herd uses into a tiny area at the back of the building with no means of escape , as they have said they needed to do certain things to the building due to wheel chair uses. If planning allow this, will the people living on the Webheath estate also be allowed to build out into the park ? I have no interest in the interior other than it is safe for all and has appropriate access for the old and disabled onto Kilburn High road. Please reject.</p>
