2020/5554/P	Richard Banks	02/02/2021 14:02:38	OBJ	<p>We have a garden that backs on to the development. A low height car port that can hardly be seen over the fence is fine. But on the proposed I would like to make 2 comments. The first regarding the height of the development. The proposed development will go substantially above the fence line. This will be imposing given its proximity to us. My other comment is on the introduction of a garden studio, and the increased occupation again so close to the fence line and our garden. It is not just a small shed for storage, but is fully plumbed, increasing occupation and in the worst case making it possible for it to be used as permanent accommodation, regardless of the scale of the increase, there would be increased noise from this new use.</p>
