Hi

I would like to submit my comments on application ref: 2021/0361/T regarding proposed work to the trees I would strongly object to any cutting and felling of the trees to ground level. All the trees mentioned in the application are very sound and healthy trees. I can see the trees outside my window and can see that they are home to several magpie, squirrels and small birds.

They also provide coverage to my flat from the sunlight and highly increase the ambience of the area My son and several children of the building play around the trees especially when the weather is bad and it is not possible to go to the park

Cutting of the trees will rob the area of a beautiful foliage and mar the beauty of the location.

I bought my flat because it was surrounded by trees on all sides. It gave a feeling of being with nature while still living in a flat. Cutting the trees will significantly impact my enjoyment of my home.

I would strongly urge you to reject the application

Regards

Suvarna
