Subject: Tree cutting check

Dear Sir

I write with a request to confirm status of a tree which is planted just beyond the boundary of my property but is growing through my fence overlooking my garden. I wish to erect a new and slightly higher fence due to a recent security breach but this would require removal of the tree. The location of the tree is off a public highway but wanted your confirmation it would be authorised to remove this. I attach photos of the tree in question for your consideration and look forward to hearing from you soon.
