Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission.

The current application seeks to reconfigure the existing roof lights at main roof level and install one additional rooflight on the central flat roof area.

The size and scale of the proposed roof lights are considered to represent minor alterations that would not cause harm to the significance of the listed building or result in a harmful loss of historic fabric. Furthermore, given their location, the proposed rooflights would not be seen from the public realm and would not have a significant impact on the character and appearance of the surrounding conservation area.

The proposed alterations would not cause harm to neighbouring amenity in terms of loss of light, outlook or privacy.

No objections were received following statutory consultation. The planning history of the site and surrounding area were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, and of preserving or enhancing the conservation area, under s.66 and 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposal is in general accordance with policy D1, D2 and A1 of the Camden Local Plan 2017. The proposed development also accords with the policies of the London Plan 2016, and National Planning Policy Framework 2019.
