2021/0206/T	Zoe Abbott	05/02/2021 16:44:27	OBJ	I object to the felling of this tree. It is 130+ years old and deserves to live a full life instead of being cut down in its prime. The last thing that needs to be done to help the current climate crisis is to fell or cut down trees. Thankyou
2021/0206/T	Ms K J Conn	08/02/2021 13:48:36	COMMNT	<p>In line with the declaration of Climate and Ecological Emergency both by Parliament and Camden Council, it is unacceptable to fell trees unless they are diseased, dying or dangerous and doing so renders such declarations meaningless.</p> <p>It appears that the boundary wall was due to be replaced and there are plenty of examples of walls being readjusted to accommodate trees as can be evidenced in Parkhill Road and other examples in the area.</p> <p>Walls are replaceable, mature trees are not. The leaf cover in Eton Avenue has already been seriously reduced by the drastic pollarding that has just taken place and there is increasing evidence of the vital role trees have on air quality, health and well-being. The value of the tree remaining where it has been for many years is incalculable and I trust the tree department will make a decision in favour of nature over a brick wall.</p>
2021/0206/T	Robert Doane-Solomon	08/02/2021 19:15:35	OBJ	Completely unnecessary to cut down a beautiful tree! Especially in a climate crisis - plant more and don't cut any down!
2021/0206/T	Hind Kabbaj	06/02/2021 10:30:25	OBJ	<p>Dear Council,</p> <p>I object to the cutting of this tree. I think we should do our best to preserve our trees in this beautiful area. Please do not cut it!</p> <p>Best regards,</p> <p>Hind Kabbaj</p>
2021/0206/T	Christian Leonard	07/02/2021 08:45:56	OBJ	This tree is provides such comfort to all that live and walk by where it grows. It cleans the air and is such an all round community amenity and should be retained for everyone to enjoy.
2021/0206/T	Levan Koberidze	05/02/2021 22:01:06	COMMNT	Save the tree
2021/0206/T	Angelica Triebe	05/02/2021 20:25:47	OBJ	If it is a healthy tree. If it is not damaging directly the house walls. If it can be trimmed to a safe stature. I object to cut it down to the trunk. Trees are just too precious for our human well being.

2021/0206/T	Abhijit Naik	07/02/2021 16:47:46	OBJ	<p>There were two previous applications to cut down this tree and both were refused. An independent tree surgeon inspected the tree and declared the tree safe and this tree is already protected a TPO. The applicant has missed this information in their application.</p> <p>Surely, a solution can be developed without damaging or destroying this tree.</p> <p>The tree is a lime tree and is important in maintaining the fragile insect ecosystem in Camden which has been severely damaged by pollution and climate change. I strongly object to this tree being felled.</p>
2021/0206/T	Thomas Budd	06/02/2021 20:27:07	OBJ	I object to this application. The tree is large and very old, and is visible from nearby streets. There appears to be no evidence that it is diseased or a hazard to the occupier or the public.
2021/0206/T	Deirdre Yager	06/02/2021 11:14:23	OBJ	I am writing to object to the application to fell this tree which I believe has a TPO placed on it. As well as being c.130 years old and deserving of our protection for that fact alone, we need all the trees we have, and more, to combat climate change, keep our environment green and pleasant and respect our history and enhance our future. London is 47% green and is the world's first National Park City. This is an achievement we should be proud of and maintain by recognising the contribution of every tree, plant and green space we have, see www.nationalparkcity.london
2021/0206/T	Natalia Groysberg	07/02/2021 16:40:29	OBJ	<p>I object to the felling of this tree. This is a 130 year old tree. Since the boundary wall has already collapse instead of destroying the tree an alternative solution can be found.</p> <p>Additionally there is incorrect information in the application, which has been overlooked. The tree is under a TPO. In 2020, the tree was inspected by an independent tree surgeon, and they confirmed that there are no signs of decay, and that this tree is not dangerous.</p>
2021/0206/T	Victor Smith	06/02/2021 23:19:26	OBJ	There are multiple campaigns to protect mature street trees across London, as residents come to recognise the value of big trees in promoting physical and mental health in an urban environment. An old wall can easily be rebuilt, but an old tree cannot. The ecosystem service value of a mature street tree can be measured in many thousands of pounds, but the historical and cultural value of a 130-year-old living being is priceless. I strongly object to the felling of this lime tree, especially since a boundary wall can so easily be made to accommodate it.
2021/0206/T	Nazim	06/02/2021 08:20:53	OBJ	This tree is simply seeing out its natural life. It shouldn't be felled and cannot see any legitimate evident which suggests it should.
