

From Dr. Jennifer Jones

January 18th. 2021

Dear Mr. da Costa.

Planning application 2020/6010/P
37 Primrose Hill Road.

I understand that the owners of the above property have applied for planning permission to build an additional storey on their house.

Like many other residents on the estate, I object to this proposal, for two reasons:-

First, to add a storey to a house in a terrace would be to spoil the appearance of the terrace as a whole. The 20th. Century Society is, I gather, of the view that the estate should be listed.

Second, taller buildings cast longer shadows, in this case on the communal gardens, which were designed as an amenity for all residents.

I hope, therefore, that planning permission will, in this case, be withheld.

Yours sincerely,

Jennifer Jones.
