Planning at Camden

I have received your letter – undated – regarding intended Tree works at Barrie House where I live.

I was under the impression that the trees in the garden are under a Tree Preservation Order.

You have given no indication as to why these trees need to be felled. It would be helpful to know the reasons , and also who has decided that these particular trees should be ‘felled to the ground’ before we can adequately pass comment.

Trees breathe life into the air, they also reduce pollutants from the air and thus help us to breathe easier. They are also a pleasure to look at and should be protected at all costs.

I await your reply.
