Hello,

I recently moved into the Basement flat at 22 Conway Street (22a Conway Street). One of my neighbours just told me about the planning application no. 2020/5168/P.

I never received any communication about it from Camden Council so I didn't have a chance to comment before the deadline.

But the application would affect me because it would block the already scant amount of daylight I get into my patio in the basement, and my bedroom window. The proposed extension would be on the only side where there isn't a high building blocking the light. I get very little light in my bedroom as it is.

Having just bought the flat and moved in, I was planning to grow some nice plants in the patio, thinking that it would give my neighbours upstairs around me a nicer view. But I doubt I'd be able to grown anything with the proposed extension diminishing the light.

And it would intrude on my privacy as I believe they'd be able to see into my bedroom window.

Finally, this is a conservation area, and I don't think the proposals are considerate of neighbours.

I would be very grateful if you will take my comments into consideration.

Best wishes,  
Dr Melissa Bradshaw
