Date: 19th February 2021

F.A.O. The Head of Planning / Chief Planner
Planning - Development Control
Camden Council
Camden Town Hall
London
WC1H 8ND

Dear Sir/Madam

**HUTCHISON 3G UK LTD:
GPDO APPLICATION FOR PROPOSED 5G (FIFTH GENERATION) EQUIPMENT AT:**

CMN10026 - Camden Street close to the junction with Kentish Town Road, Camden, London

On behalf of our client GBC ('client') who are working on behalf of Hutchison 3G UK Limited ('H3G') in respect of the rollout of telecommunications apparatus associated with 5G, Dot Surveying Ltd ('agent') has been instructed to prepare and submit this application for a determination as to whether the Prior Approval of the authority will be required as to the siting and appearance of the proposed development.

This application is submitted under Part 16 of Schedule 2 (Communications) of The Town and Country Planning (General Permitted Development) (England) Order 2015, as amended by The Town and Country Planning (General Permitted Development) (England) (Amendment) (No.2) Order 2016, and in accordance with the electronic communications code under the Telecommunications Act 1984 Schedule 2, as amended by the Communications Act 2003.

The Government has made significant reforms to the planning system to support increased mobile connectivity. In 2016 The Town and Country Planning (General Permitted Development) (England) (Amendment) (No.2) Order 2016 amended planning regulations, which extended permitted development rights to enable ground based mobile telecommunications masts without the need for a full planning application.

The Government recognises that the widespread coverage of mobile connectivity is essential for people and businesses. As well as improved mobile signal, 5G networks are also crucial to drive productivity and growth. Enabling and planning for 5G implementation is central to achieving the Government's objective to deliver prosperity at the local level and enable places to share in the proceeds of growth.

The significant impact of the coronavirus pandemic demonstrates the urgent need for excellent mobile connectivity to allow people to work and learn from home.

Further, the National Planning Policy Framework chapter 10 states that local planning authorities:

Dot Surveying Ltd is a company registered in England and Wales: Company Number 12401570
Registered Office Address: 8 Blandfield Road, London, England, SW12 8BG
VAT Registration 345 2850 00

“should support the expansion of electronic communications networks, including next generation mobile technology (such as 5G) and full fibre broadband connections.”

Hutchison therefore benefits from permitted development rights for this development as set out under the above order. H3G are required to apply to the local planning authority for a determination as to whether the prior approval of the authority will be required to the siting and appearance of the development set out below;

Proposed telecommunications installation: Proposed 18mtr phase 8 street pole c/w wrapround cabinet at base, 3 no additional equipment cabinets and associated ancillary works.

The location has been identified following a review of potential alternative locations and been selected as being the most suitable for H3G’s business development, meeting its specific technical and operational requirements. The identification of this location follows pre-application consultation with your Department and we now make a formal application to you as the planning authority.

We wish to bring to the LPAs attention a recent Appeal Decision (Appeal Reference APP/A5840/W/20/3254830) which we consider is material to the determination of this application.

In order to allow the Council to assess the proposed scheme, please find enclosed the associated application package comprising: -

- Planning Drawings Ref: CMN10026_PLANNING_REV_C
- Site Specific Supplementary Information and Supporting Justification Statement which contains the following: -
 - ICNIRP Certificate
 - Developers Notice
 - Earlier payment of £462.00 supporting the fee re-submission.

We trust this information and drawings are acceptable and look forward to discussing the merits of this proposal with you soon.

In the meantime, should you require any additional information or have any queries relating to this application, please do not hesitate to get in touch with James Reilly, preferably by email at j.reilly@dotsurveying.co.uk or telephone 07903 895601.

Yours faithfully

James Reilly MA (Hons) MRTPI
Planning Manager
Dot Surveying - For and on behalf H3G
