I am commenting on the Construction Management Plan on behalf of the Dartmouth Park Neighbourhood Forum. We thank you for amendments addressing previous comments, and have only one further comment we would like to raise. This is to incorporate into the CMP the commitments given to the Construction Working Group in respect of two trees located on the site:

- 1 In respect of the plane tree to be removed to enable the exit onto Croftdown Road, this will be replaced with an Ulmus Lutece 'Nanguen', of a mature size (35cm girth, 6-7m height at purchase, 2m clear stem length); and
- 2 In respect of the tree at the entrance to Bertram Street, this will be replaced with a tree of the same species and of an equivalent size to the tree removed.
