

ACCESS & TRANSPORT

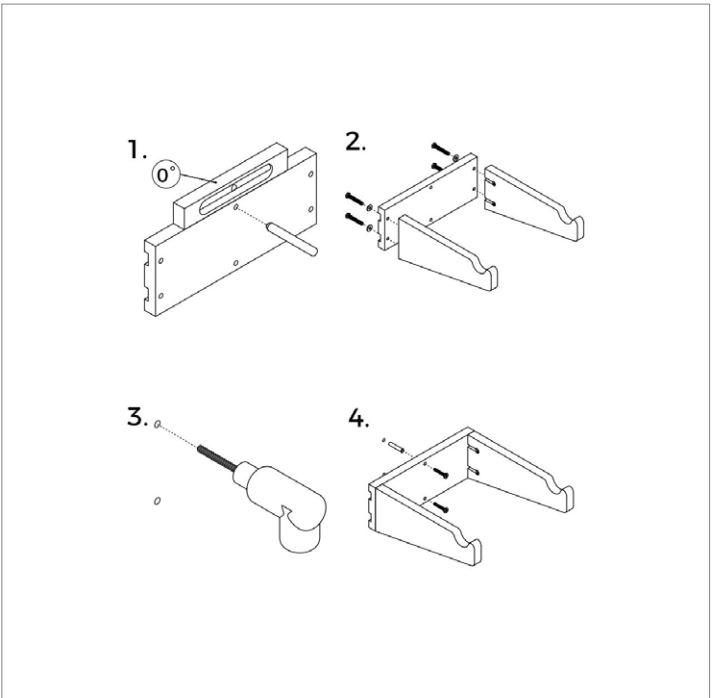

CYCLE STORAGE DETAIL

The provision for the number of cycles is in line with the London Plan - Chapter Six - Cycle Parking. The plan states that there should be 1 cycle space per 1 bedroom unit and 2 cycle spaces per every 2+ bedroom unit, resulting in a number of 6 cycle spaces required.

Six cycle spaces are proposed as labelled on the floor plans. The cyce spaces will be provided using bicycle wall mounts similar to the suggested product below, manufactured by Huxlo.
