

CONSTRUCTION (DESIGN AND MANAGEMENT) REGULATIONS 2015

1. If you do not fully understand the risks involved during the construction of the items indicated on this drawing ask your manager, health & safety advisor or a member of the design team before proceeding.
2. Scaffold protection to be provided during roof works with internal fall protection.
3. Any manual handling risks to be identified and design team notified in advance of commencement of works.
4. The contractor should be aware that there may be buried or covered services such as electric, gas or BT not identified on drawings.
5. The contractor should be aware of the general condition and stability of building fabric- particularly during demolition and alteration work.
6. When working with lime products which are corrosive to skin and eyes, suitable protection is required.

A scale bar for the map, labeled 'SCALE BAR 1:1250 (metres)'. It consists of a horizontal line with alternating black and white segments. Below the line, numerical markers are placed at 0, 10, 20, 30, 40, 50, and 100, representing metres.
