

Dear Madam/Sir

Objection to Planning application 2101/0124/P. 5 Mornington Place

From the front of our house at 16 Albert Street, and when we venture out into the street, my wife and I have a clear view of the pleasing roof line of the rear of 5 Mornington Place, and its neighbouring houses. In our opinion, the essential unity of the view would be destroyed by the erection of a mansard window, without any compensating advantages. We therefore hope that the application will not be granted.

Yours sincerely,

Dick Leonard,
Professor Irène Heidelberger-Leonard.
