2020/5660/P	Jonathan Byatt	08/03/2021 06:48:38	OBJNOT	OBJECTION. This application will materially and negatively impact the life of all residents of South end close. Applications by residences in and around Constantine Road have been treating South end close as their own access, storage and building space. Residents and tenants association have objected to every proposal and yet still the residents of Constantine Road treat the estate as if it is a building site for their back garden to do with what they will. The estate contains elderly, disabled and children who have to negotiate the multiple vans, cars, building materials, rubbish piles and general building work just so the residents of Constantine road (and in this case Elm Terrace) are not inconvenienced. There has been no no contacts attempted with the SECRA Residents Association and this will close off the main pedestrian access to South end close for the duration of the Works. The Residents Association is willing to speak at any planning session and lodge their protests in person.
2020/5660/P	Marjan Brazier	06/03/2021 22:23:10	OBJ	I am objecting to this application. Reason being that the back area of the proposed property is adjacent to private land, I.e. South End Close. It is a Close with children playing as it is a safe area. Previous alterations and works at Elm Terrace and Constantine Road have had huge impact on South End Close due to obstruction of the Close by lorries and other vehicles, damage to garden areas, which have never been rectified by applicants of the works, fly tipping of building materials on the Close. South End Close is a private road and signs are up that there is no access. Please it needs to be kept safe for children and other residents
