| 2021/0885/T | Kate Rowland | 09/03/2021 14:09:27 | OBJ | <p>I live in Croftdown Road and look onto this tree everyday. These trees, act as a green divide between Woodsome and Croftdown Road and are extremely vital to the natural environment, benefit all the residents and provide a home to the birds and shade in the increasingly hot summers. They also provide some privacy, and act as a barrier to light pollution with new glass extensions. As it is, the conifer directly behind me was cut in half without the proper permissions, and now to lose a second tree seems a real tragedy. There are too few trees and it will take years to replace this lovely specimen, trees like this are important to the whole community. The planning applications fails to mention whether there are any measures in place to replace this loss. Thanks</p> |
