

1 Introduction

What does this guidance cover?

- 1.1 The purpose of this guidance is to provide an indication of what may be required when the Council considers that a development proposal needs a planning obligation to be secured through a legal agreement. Planning obligations can be used positively and to address some of the negative impacts of development which would otherwise make a development unacceptable.
- 1.2 Planning obligations are normally secured under Section 106 (S106) of the Town and Country Planning Act 1990. However, the Government currently intends to introduce a Community Infrastructure Levy (CIL) in order to secure infrastructure funding from individual developments. This is intended to operate alongside the Section 106 system and will be explained further below.
- 1.3 The use of planning obligations is an important tool in ensuring the delivery of necessary infrastructure to support the Local Development Framework. They will be used to ensure that the strategic objectives of the LDF Core Strategy and Development Polices are met through requirements attached to individual development proposals.
- 1.4 The use of planning obligations is specifically required through policy CS19 - *Delivering and monitoring the Core Strategy* although a whole range of individual Development Policies may be used to justify an obligation, particularly those relating to affordable housing, sustainability and transport. This guidance is intended to provide general advice on how planning obligations operate. Large scale developments generally have more significant and complex obligations attached to them, but obligations may also be applied to small scale developments to achieve measures such as car free housing or to manage the impacts of construction.

When will it apply?

- 1.5 This guidance applies to all development where proposals are likely to be subject to planning obligations under Section 106 of the Town and Country Planning Act 1990 (as amended). In dealing with planning applications, local planning authorities consider each proposal on its merits and reach a decision based on whether the application accords with the development plan, unless material considerations indicate otherwise. Where applications do not meet these requirements, they may be refused.
- 1.6 In some instances, however, it may be possible to make acceptable development proposals which might otherwise be unacceptable, through the use of planning conditions (see Department of the Environment Circular 11/95) or, where this is not possible, through planning obligations. Where there is a choice between imposing conditions or entering into a planning obligation a condition will be used.
