6. Description of the Proposal

Please describe details of the proposed development or works including any change of use.

If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.

The property was a shop. It has already been converted to include a shower and a double glazed back window. there is plumbing in place for a sink, which will be put in and include a cupboard for recycling.
There is to be a micro kitchen on wheels, which can be positioned near the back window to comply with fire regulations , so that any heat source (which will be an electric hotplate) is far away from the front door which is deemed the best point of escape in a previous application which was withdrawn because it timed out.
In terms of fire the back window also leads to a wall and is only one story up and would also be an easy exit for any fit person.
In principle the council agreed to the change of use for this premises to C3 residential, and there is not really anything to do in terms of any building work.
It is currently B1 and D2. Tony young was the planning officer before and the process looked at shops on kilburn high road and saw that everything is provided for. Also at exisiting shops converted to flats on the parade and accepted the precedent. The freeholder held up signing the section 106 so we withdrew so that the application. did not appear as being rejected, when in principle we had all done the work to agree its status change to C3
This application is therefore for a chnage of use from B1 and D2 to C3. Thank you

Details of the pre-application advice received

I was reapplying for change of use. I had put in a pre application, but mark said this was unnecessary and is seeking a refund for me. He advised to go straight to full planning permission and said this is straightforward because all the work was done before, it just didnt go through because it timed out. the current uses are what we compromised with because the freeholder held up the section 106, by refusing to sign unless paid £10,000 . We withdrew the application because I thought this was excessive . I also didnt know if there would be other letters the freeholder would be required to sign in this process (which has been going on since 2014. If that had been the case and I had no one I could aks in such a short time (a few days before the time out of the application.) I had previous experience of the freeholder and was not able to trust him not to ask for even more money at a new juncture. Mark Chan understood this an advised accordingly. I now understand that freeholders often DO ask for moeny and am more prepared this time to deal with his response to be asked to sign a letter. I also understand that there wont be any other docy=uments that the freeholder has to sign for this chnage of use to go through, so that implies that if he does ask for money it will be a fixed ammount .

37. Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

☐ Yes ☒ No

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
