2021/0756/P	Thomas Samson	12/03/2021 21:48:44	SUPPRT	As a local resident of the Chalcot Estate, I support this application. This additional storey will allow growing families to stay in the area and provide home office space. The design is in line with new extended PD rights.
2021/0756/P	Michael Dakin	15/03/2021 08:47:57	COMMNT	<p>I support this planning application to add an additional story to 22 Quickswood and think it is an important opportunity for the neighborhood, Camden and all of London.</p> <p>London in general, Camden as a whole and in particular Primrose Hill, has a lack of family housing. It is important to make sure that there are not only enough but also suitable family homes in our community and the proposed extension helps to enhance the housing stock in a manner that if low impact to both the environment and to the neighbors and neighborhood.</p> <p>Accordingly, adding another story is not only specifically provided for and that basis of the new legislation passes in August 2020 but, importantly, this approach to development would have the lowest possible impact to create more living space in the neighborhood (as opposed to digging out a basement which is very slow, expensive and disruptive or building new houses). The past year has seen enormous change, including a shifted towards working at home more and it will likely become permanent, the proposed extension would provide more space not only for home offices but home gyms too, as well as to accommodate larger families. The proposal is a thoughtful and reasonable proposal that is within the provisions and exactly what is contemplated in the law and is more relevant and important than ever as a means of considerate and conscientious development and should be approved.</p>
2021/0756/P	Anne Maka	14/03/2021 11:59:04	SUPPRT	<p>I support this planning application to add an additional story to 22 Quickswood.</p> <p>Camden as a whole and in particular Primrose Hill, has a lack of family housing. To add another story is not only legal under the new legislation passes in August 2020 but this approach to expansion would have the lowest possible impact to create more living space in the neighbourhood (as opposed to digging out a basement which is very slow, expensive and disruptive). In the past year a lot of us have shifted towards working at home more and it will likely become permanent and this would provide more space not only for home offices but home gyms too.</p>
