Subject: Planning Trees - Application ref: 2021/1128/T

Dear Sirs

We are writing in connection with the above referenced application for the walnut tree in the rear garden of 10 Brookfield Park to be felled to the ground.

Although it is a beautiful tree we are in support of the application. The tree has grown to be very large, towering over our house and with its branches covering a significant part of our rear garden and the rear gardens of several other properties. For example, a lot of walnuts and branches of the tree fall in our garden each year. The tree blocks out a lot of light. We are also worried that the tree roots could cause damage to our property (as well as other properties in the vicinity).

It is a very substantial tree and therefore is now out of proportion with the relatively small gardens in the area. We are also concerned that if branches fall from the tree they risk injuring our children playing in the garden or ourselves.

The tree has not been cut back for a long time (five or six years?) and has grown to a size that it is now a real problem.

For these reasons we are in favour of the application and would very much like to see the work done before the summer.

Kind regards

Nathan and Emily Willmott
